SMALL FORM FACTOR DESIGN

Compact and lightweight for longer flight time and a high level of mobility in the field.

VERSATILE PAYLOAD

Greatly compatible with various sensors to adapt the most demanding requirements of commercial jobs.

ADVANCED CAMERA MOUNT

Smart mounting solution without using the top bar makes the set-up cleaner but still ensures good performance.

FLEXIBLE MOUNTING OPTIONS

Capture distinct camera angles from any perspective with three different mounting options.

MTX INTERFACE

Support advanced I/O capabilities through the MTX connection.

Payload: 400g

Weight: 250g
