

WHEN LIVES DEPEND ON UNLIMITED FLIGHT TIME

Enterprise drones are essential to public safety operations, providing crucial situational intelligence for law enforcement, fire and rescue, and disaster recovery efforts. When lives are on the line, drone battery life should be the last concern.

Blue Vigil's RS1000 tether power system provides unlimited flight time for most commercial drones. The ground-based tether unit can be powered from an 110 V/220 V outlet, portable generator or inverter connected to a vehicle electrical system.

USE CASES

LAW ENFORCEMENT & FIRST RESPONDERS

- ▶ Crime scene and Accident Assessment
- ▶ Search & Rescue
- ▶ Crowd Control
- ▶ Traffic Management
- ▶ Event Management
- ▶ Disaster Site Assessment
- ▶ Situational Awareness

FIREFIGHTING

- ▶ Hazard Assessment
- ▶ Hot Spot Detection
- ▶ Crew Management
- ▶ Search & Rescue
- ▶ Post-fire inspection and monitoring
- ▶ Situational Awareness

PRODUCT BENEFITS:

- ▶ Unlimited Flight Time: No more downtime while changing batteries
- ▶ Quick to Deploy: Install and uninstall in the field in just seconds
- ▶ Broad Coverage Area: Tether is available in 150 ft. & 300 ft. lengths
- ▶ Retractable Tether: Adjusts for use in windy conditions
- ▶ Launch & Leave: Drones hold their position without constant operator input
- ▶ Highly Portable: Locate and launch without impacting other apparatus
- ▶ Affordable Solution: Use with drones already in your fleet

COMPATIBILITY

The Blue Vigil RS1000 operates with the DJI Inspire 1, Inspire 2, Matrice 200/210 and Matrice 300 as well as any drone that operates on a 12 V or 24 V battery.

Blue Vigil's RS1000 tether power system is available from authorized dealers. Visit bluevigil.com for more information.
