

Blower Fan Rotor Cover

- Add-on achieves IP25 rating for top of motor
- Improves cooling while motor is in use to increase continuous torque output

Mesh Rotor Cover

- Designed to be paired with the blower fan
- Add-on achieves IP45 rating for the top of the motor

Coil Covers

- Add-on that achieves IP45 rating for the middle section of the module
- Combined with rotor covers, the motor is IP45

Base Module

- Integrated motor & ESC with embedded position sensor
- All add-ons are attached to the base module

Connectors

- External solder pad connector (shown)
- Downward ejected solder pads
- Flying leads
- Custom connectors

LED Add-On

- Customizable LED
- Controlled via CAN through module

Stator Cover

- Default Cover (shown)
- Downward Ejection with O-ring seal achieves IP65 for ESC compartment
- Custom stator covers
